SUMMARY

Marketing graduate with a strong foundation in primary and secondary research, survey design, and quantitative data analysis across banking, investment, and consumer behaviour studies. Skilled at translating survey data into clear, actionable business recommendations — seeking an entry-level analyst or client-facing role where research rigor and communication skills drive impact.

CERTIFICATIONS

- **Citi Finance Job Simulation** — Forage (2026): analyzed 2022 KPI performance, audited Basel III RWA/CAR compliance, and modeled Omicron impact on credit card sales.
- **Goldman Sachs Controllers Job Simulation** — Forage (2026): built a budget and calculated fund NAV for valuation.
- **Red Bull Sales & Marketing Job Simulation** — Forage (2026): analyzed account-level CAGR and handled client objections.
- **Siemens Mobility Job Simulation** — Forage (2026): built KPIs and a dashboard for a simulated urban rail expansion.
- **Basics of Microsoft Power BI** — UniAthena & Cambridge International Qualifications (2026): core dashboard-building fundamentals.

SKILLS

Technical: Microsoft Excel, Power BI (basics), PowerPoint, Word, Google Forms

Research & Analysis: Market Research, Banking Research, Investment Research, Consumer Behaviour Analysis, Customer Insights, Quantitative Analysis, Comparative Analysis, Survey Design, Questionnaire Design, Data Interpretation

RESEARCH PROJECTS

Digital Banking Strategy Analysis | *HDFC Bank vs. ICICI Bank*

- Surveyed 100 HDFC and ICICI customers and applied hypothesis testing to link digital marketing with adoption.
- Found 70% discovered features via social media/YouTube and 67% were driven by promotional offers (80% for HDFC).
- Benchmarked UX and trust metrics across both banks and translated results into bank-specific recommendations.

Investment Behaviour towards Gold ETFs among Retail Investors | *Mumbai Metropolitan Region*

- Surveyed 60 retail investors to assess Gold ETF awareness, investment drivers, and preference vs. physical gold/ SGBs.
- Found only 13% were fully aware of Gold ETFs, while liquidity (50%) and market volatility (47%) drove decisions.
- Cross-referenced findings with AMFI/Moneycontrol data (AUM ₹1.28L → 1.84L Cr) to deliver 10 adoption recommendations.

Consumer Behaviour & Sensory Branding Analysis | *Apple vs. Starbucks*

- Surveyed 100 respondents across Mumbai's premium retail hubs on visual, auditory, olfactory, and haptic branding cues.
- Found 94% instantly recognized the Apple logo and 85% felt stronger purchase intent after handling an iPhone.
- Found 69% of Starbucks buyers entered stores purely by aroma; recommended scent- and sound-based branding strategies.

Impact of Social Media on Consumer Purchasing Behaviour | *Mumbai*

- Surveyed 70 Mumbai social media users across 13 purchase-related parameters on ad engagement and buying behaviour.
- Found 86% purchased a product after seeing it on social media, with 60% of spend in the ₹500–2,000 range.
- Delivered 7 brand recommendations, including optimizing Instagram/YouTube presence and mid-range price targeting.
